One of the myriad political rumors  
afoot is one to the effect that Senator  
Bailey will resign before the end of  
his term on condition that he be per-  
mitted to name his successor. It is  
believed that there is only one man  
whom Senator Bailey would name and  
Governor Colquitt would appoint, and  
that man is Clarence Ousley, editor  
of the Fort Worth Record. Mr. Ousley  
is probably not the first choice of  
either, but would be acceptable to  
both. An appointment under such cir-  
cumstances would make the Fort  
Worth man a formidable candidate for  
the senatorial succession, but it would  
not insure his nomination.

Governor Wilson says it is in vain  
to expect true government of the peo-  
ple so long as a political party domi-  
nates the affairs of the state or nation,  
for the reason that parties are ruled  
by bosses, who seek their own interest  
instead of the public good. This sort  
of doctrine is very welcome to the  
people, but it doesn't suit the machine  
politicians at all and they will defeat  
him if they can. If Governor Wilson  
is nominated it will have to be be-  
cause the popular demand for it is so  
strong that the politicians can not re-  
sist it.

Mr. H. L. Scales, a Texan and the  
youngest of the big cotton bulls, gives  
this good advice on marketing: "The  
world's production of cotton this year  
looks now to be about the same as last  
year. Present prices are three cents  
per pound too low. Farmers should  
market the crop very slowly. It would  
be better still to hold every bale for  
14 cents and above."

It takes effort to secure good roads,  
as it does to get everything of value.  
Everybody realizes the value of im-  
proved highways, and all that is need-  
ed is to arouse the people to the neces-  
sity of making the effort. It is not  
only necessary for everyone to act,  
but for all to act in concert. The law  
provides a way to do this by organ-  
izing a road district.

There are people in every town, not  
excepting Bryan, who would rather get  
a rival's goat than do anything for the  
public good. Such are undesirable citi-  
zens. Petty spies and jealousies indi-  
cate a little soul-town building, big  
brained and big hearted men. There  
are plenty of such in Bryan, and when  
they unite for the accomplishment of  
an object something happens.

The Calvert Picayune carries a big  
headline across the top of the front  
page mendaciously proclaiming: "Cal-  
vert—the cotton center of the Brazos  
Valley." Now all the world knows that  
Bryan is in the midst of the surround-  
ing country, while Calvert is on the  
outside edge. Little folks shouldn't be  
loud.

The Houston Post puts this query  
up to The Eagle: "Did the Vaughan  
committee ascertain any information  
to the effect that there were voters  
who didn't make out their own bal-  
lot?" If the Vaughan committee ac-  
complished anything except to upset  
the frying pan and spill the pro fat in  
the fire we haven't heard of it.

That Baptist preacher who refused  
a thousand dollars for marrying Col-  
onel Astor and Miss Force is getting  
several thousand dollars worth of free  
advertising out of it. Not that he so

intended it; most likely it was in the  
nature of a windfall.

The Telegram boasts that for the  
first time in Temple's history her peo-  
ple are drinking clear water from  
Leon river, but that is like slop to  
champagne compared with Bryan's  
water from deep wells.

The club women and actresses of  
New York are protesting against Beu-  
lah Binford being allowed to exhibit  
herself on the stage. Possibly they  
would go to see the show if it were  
on a scaffold.

Governor Hadley of Missouri is tel-  
ling the farmers of his state that good  
roads are not an expense but an in-  
vestment. And they can make no in-  
vestment that will yield surer or  
larger dividends.

If every town in Texas must have  
a candidate to succeed Senator Bailey,  
Bryan can trot out Lamar Bethea.  
He's as big as some of those men-  
tioned.

Senator Bailey's friends are right in  
asserting that no other man can fill  
his place. There never lived a man  
who could more than approximately  
fill any other man's place.

Some people are constantly worry-  
ing about what people will think of  
them. Other people very rarely think  
of such people at all. They're not  
worth it.

Candidates for county offices are  
already announced in some of our ex-  
changes and the primary is yet ten  
months off. They evidently do not be-  
lieve that the first shall be last.

The schools will all soon be running  
and Bryan will again take on her ac-  
customed look—that of a typical col-  
lege town.

The sugar trust has advanced gran-  
ulated another ten points, making the  
price 16.60. They evidently intend to  
have all the traffic will bear.

A hypochondriac is a person who is  
happiest while telling a patient lis-  
tender about his ailments.

**HOO-HOO OFF ON CRUISE.**

Detroit, Mich., Sept. 9.—Several hun-  
dred lumbermen from all over the  
United States and one sacred cat, sym-  
bolic of the official emblem of the  
order, boarded the steamer City of  
Cleveland today and will hold the  
twentieth annual convention of the  
Concatenated Order of Hoo-Hoo while  
cruising o'er the raging deep. The  
Hoo-Hoo is a national organization of  
men engaged in the lumber industry  
and allied industries, and the annual  
conventions are always commenced on  
the ninth day of the ninth month, out  
of respect to the nine lives of the  
feline which is the mascot of the  
society.

The cruise will be to Georgian Bay  
and up to Sault Ste. Marie, returning  
down the eastern shore of Lake Huron  
and reaching Detroit on Thursday,  
September 14. All social and business  
sessions of the convention will be  
held on board the steamer.

**Knights of Columbus Celebrate.**

New York, Sept. 9.—Under the aus-  
pices of Brooklyn council, a celebra-  
tion of the twentieth anniversary of  
the establishment of the Knights of  
Columbus will be commenced tomor-  
row evening with solemn musical ves-  
pers and will continue through next  
week. The celebration will close next  
Saturday with a banquet at which the  
supreme officers and prominent mem-  
bers will speak.

**Water Carnival for Girls.**

New York, Sept. 9.—All the sea  
nymphs and near-mermaids of the me-  
tropolitan district have been invited  
to compete tomorrow in the second  
annual water carnival for girls to be  
held at Sheephead Bay. There will  
be 70-yard and 100-yard swims and  
diving contests for young ladies in  
both the junior and senior classes.

**Russian Dancers Returning.**

Paris, Sept. 9.—Anna Pavlova and  
Mikail Mordkin, the great Russian  
dancers, at the head of a large com-  
pany, will sail for New York from  
Cherbourg tomorrow on board the  
President Lincoln. The company will  
appear in Madison Square Garden next  
month.

**NEW FEATURE AT  
A. & M. COLLEGE**Provision Made for Student Labor  
Colony—Rules and Regulations to  
Govern Students Getting  
Benefit of Fund.

A student colony, the members of  
which will do actual practical farm  
work, for which they will be paid, and  
at the same time they will attend the  
classes in agriculture, will be a new  
feature at A. & M. college commencing  
September 26, when the college year  
opens.

The legislature has provided a spe-  
cial fund of \$2500 per year for student  
labor on farms, which is to be avail-  
able commencing with the college  
year. President Milner has appointed  
a committee of the faculty to work  
out the plans under which this fund  
is to be expended, and this committee  
has decided upon a proper distribution  
of it.

1. The benefits of this fund shall be  
limited to undergraduate students in  
agricultural courses who furnish to  
the committee on student labor, of  
which Dr. C. P. Fountain is chairman,  
satisfactory evidence that they need  
such assistance in order to pay actual  
college expenses.

2. All students receiving the bene-  
fits of this fund shall reside on the  
campus in a group of tents, or such  
part of the dormitories as the command-  
ant may direct. This is in order that  
their system of early rising for farm  
and dairy work may be maintained  
without disturbing others.

3. During the first four weeks of his  
stay at the college the student shall  
perform all military duty. After that  
time he shall drill at least once a  
week, attend ceremonies once a month  
and perform such other military duty  
as the commandant may prescribe.

4. The rates of pay shall not exceed  
\$10 for the first month and \$15 a  
month after that time, except by per-  
mission of the student labor commit-  
tee upon recommendation of the su-  
perintendent of the farm.

5. Any student whose scholarship,  
conduct or farm labor is unsatisfactory  
shall be denied the benefits of this  
fund.

6. When a student ceases to receive  
the benefits of this fund he shall be  
subject to the regular military duties.  
7. The student will be required to  
carry at least the minimum number of  
hours in theory and practice pre-  
scribed for students.

The farm is under the direction of  
H. L. McKnight, superintendent, and  
to him students will apply for regis-  
tration under this new fund. The farm  
consists of about 350 acres, which does  
not include pasture lands. The pasture  
consists of about 2000 acres and fur-  
nishes grazing for the herds. The stu-  
dents working on the farm will do  
practical agricultural work and prac-  
tical work at the dairy.

**FIRST AERIAL POSTAL  
SERVICE IN HISTORY**Aeroplanes Will Carry Mails to Places  
in Great Britain Not Easily  
Accessible.

London, Sept. 9.—Postal authorities  
of Great Britain today established the  
first official aerial postal service in  
history. Several aeroplanes have been  
contracted for and will be used in  
carrying letter mail to places not readi-  
ly accessible by land or water routes.  
Great Britain has led the way in all  
postal improvements and today's in-  
novation maintains her supremacy in  
this regard. England was the first na-  
tion to adopt postage stamps, the  
penny post, parcels post, postal tele-  
graph and postal savings banks.

**Americans See Maneuvers.**

Berlin, Sept. 9.—Inspector General  
L. A. Garlington of the United States  
army, Gen. W. W. Witherspoon of the  
American war college, Capt. Matthew  
E. Hanna and Major Lassiter rep-  
resent the United States at the German  
war maneuvers in Pomerania, which  
begin tomorrow. The visiting officers  
from all nations are the personal  
guests of Emperor William.

**Monument to Pioneer Woman.**

Webster City, Ia., Sept. 9.—A hand-  
some monument, built by public sub-  
scription, will be unveiled tomorrow  
to the memory of Mrs. Henry Lott, the  
first white woman to die in this sec-  
tion of Iowa. Mrs. Lott's death oc-  
curred in 1849, following the raiding  
of her home and the killing of her  
children by a band of Indians.

International Electrical Congress.  
Turin, Italy, Sept. 9.—With the  
United States prominent among the  
nations represented, an International  
Congress on Applied Electricity was  
opened today in Turin and will con-  
tinue to September 20. The Associa-  
zione Elettrotecnica Italiana is in  
charge of the congress. An exhibition  
of unique character is a feature of the  
exhibition.

**A. & M. FOOTBALL SQUAD  
TRAINING AT LAPORTE**Ideal Camping Place—Good Fishing.  
Schedule for the Year.

Laporte, Texas, Sept. 9.—When  
Prof. E. J. Kyle selected Sylvan Beach  
at Laporte for the training grounds  
of the football squad for the season of  
1911 he picked one of the prettiest  
places along the Texas coast and those  
who are here for the opening of the  
camp tomorrow are delighted.

It is a beautiful place to camp—and  
camp it is to be, because the outdoor  
life appeals to these athletic boys and  
they are going to live in tents, sleep  
as much as they can in the open and  
run and romp on the sand. There are  
large elm, oak and hackberry trees  
that go nearly to the water's edge.  
High bluffs overlook the bay, so that  
the elevation is good, and the boys  
will have great sport fishing and crab-  
bing. The camp is to be maintained  
for sixteen days, and then the entire  
squad will go to College to be ready  
for the opening of the college year,  
September 26 being the first day of  
registration.

This year the Farmers will have a  
veteran team, and then there will be  
a lot of new stuff. Moran is great on  
getting new material and the Texas  
Farmers are confident that they will  
have the men and be in pink of con-  
dition when they play their first game,  
which is to be with Auburn, Ala., Oc-  
tober 21, at Dallas, during the Texas  
State Fair. Moran starts tomorrow to  
train the men to go up against the  
husky Alabama fellows. The entire  
time at Laporte will be devoted mainly  
to hardening the soft muscles of the

**DIRT BROKEN ON  
MACARONI FACTORY**Will Swell City's Pay Roll and Be  
Great Help to Bryan's  
Business.

Work was begun this morning on  
another important industry for Bryan.  
The first dirt was removed in the  
construction of the macaroni factory,  
which is to be located along the Hous-  
ton & Texas Central tracks just south

of the Lawler power plant and flour  
mill.

It will be a large building, 30x70 feet,  
one-half of which will be two stories  
high. The very latest and most im-  
proved machinery used in the man-  
ufacture of macaroni will be installed.  
The plant is expected to be in opera-  
tion within sixty days.

This factory will give employment  
to a large force of hands and in help-  
ing to swell the city's pay roll will be  
a great aid to the business of the  
town.

The Messrs. Lawler and their asso-  
ciates are the promoters of this new  
Bryan enterprise.

**UNION HILL.**

We had our jubilee meeting on last  
Sunday. We noticed quite a number  
of Bryan people on hand, and we want  
them to remember they are always  
welcome. We had a fine sermon by  
that man of God, Rev. Thomas of  
Bryan, the Christian minister. Rev.  
Thomas never forgets his Union Hill  
friends. We had preaching Wednes-  
day night by Rev. Isaiah Watson, the  
Baptist missionary. On Saturday night  
at 8 o'clock and Sunday at 11 a. m.  
there will be services conducted by  
Rev. Jim Riggs of the Freewill Baptists.

Mr. Hugh Royall of Houston is visit-  
ing here at his boyhood home. We are  
always glad to see our old neighbors  
among us. They are scattered over  
Texas, occupying many positions of  
trust, and now and then they come  
home and stay a day or so.

Several farmers in this community  
are planting Irish potatoes. They are  
diversifying, trying to raise as much  
at home as possible. I see plenty of  
hogs, chickens and geese on the neigh-  
boring farms.

The singing school by Prof. Dyess  
starts next week.

The league meets as usual every  
Sunday night at 8 o'clock. Come out  
and enjoy an hour with the folks.

EGG MAN.

**Big Show Coming.**

The big 101 Ranch Wild West show  
is billed to exhibit in this city on Oc-  
tober 6. The pictures will be up in a  
few days and the small boy will begin  
to save up to go to the show.

Fresh turnip seed. Haswell's Book  
Store.

**Cooling  
as  
an Icicle**

If you want to think of  
crisp winter weather and  
sparkling frost; if you want  
to forget the heat and the  
dust and the thirst, for real,  
cool comfort, drink

**Coca-Cola**

As sparkling, wholesome and  
refreshing as a spring house  
icicle. So next time you're  
hot or tired or thirsty, if  
you're anywhere near a place  
that sells Coca-Cola, go in and  
give yourself a real treat.
